

DAO	Category	Description	Website	Twitter
Grassroots	Treasury	Grassroots is a crowdsolver with multiple algorithms to approve transactions (multisig), it enhances funds security and offers DAOs and NFT integrations, often used by DAOs for treasury and management.	https://www.grassroots.io/	https://twitter.com/grassrootsdao
Signet	Governance and voting	Signet allows anyone to create an off-chain, gossamer space to manage their own proposal-making and voting strategies based on on-chain registered voting shares.	https://www.signet.io/	https://twitter.com/signetdao
Aspen	Launcher	Aspen of DAO templates and apps that can be combined to launch DAOs, complete with dispute resolution, in the middle.	https://www.aspen.io/	https://twitter.com/aspenio
Jacobus	Governance	Jacobus is dedicated to developing DAO treasury management software. The product is built to support small projects with grand visions as well as large projects that have complex operations. DAOs configured on Jacobus will be able to collaborate incentives and allocations for their users and contributors over time.	https://www.jacobus.io/	https://twitter.com/jacobusdao
Adia	Governance	Adia is a virtual coffee, ideating and community-building through Web3 media & publications. Participation is NFT-based and content may be easily NFT-locked and managed on-platform by its creators.	https://www.adia.io/	https://twitter.com/adiaio
Guild	Governance	Guild is an open Source product which facilitates the setup of three-gated DAOs: members and roles, based on ownership of cross-chain, long-term and non-long-term tokens (NFTs).	https://www.guilddao.io/	https://twitter.com/guilddao
Miner	Governance	Telly is a portal for Compartment Governance DAOs, offering the a decision-making & management UI and an explorer for their activity and membership. It also serves educational materials and a newsletter focused on decentralized governance.	https://www.minerdao.com/	https://twitter.com/minerdao
Moss	Governance	Moss makes it easy for your people together, by giving them shares of community treasury building, and the thousands of people who are already having themselves from various media.	https://www.mossdao.com/	https://twitter.com/mossdao
Bursterion	Governance	Bursterion is a general portal for its integrated, mainly DAOs protocol DAOs. It offers a dashboard allowing easier participation, clearer workflow, and more time towards a governance day and an explorer for the integrated DAOs.	https://www.bursterion.com/	https://twitter.com/bursteriondao
Moss	Governance	Moss is a three-gated DAO template that helps communities with networking, engagement, coordination, and resolution.	https://www.mossdao.com/	https://twitter.com/mossdao
Dune Analytics	Governance	Dune Analytics is a powerful tool for blockchain research. Data gives you all the tools to query, extract, and visualize vast amounts of data from the blockchain. Data is unlocking the power of public blockchains data by making it accessible to everyone.	https://duneanalytics.com/	https://twitter.com/duneanalytics
PIOP	NFT collection/marketplace	The PIOP tool aims to provide a decentralized way of keeping long lasting records of memories, the experience. A PIOP is a digital collectible created as a NFT (non-fungible token) generated by the Blockchain.	https://www.piop.io/	https://twitter.com/piopio
Colony	Launcher, Treasury	Colony is a flexible and easy-to-use framework for creating and running DAOs. It provides everything an organization needs to operate on-chain: Payments, Roles, Authority, Governance, Treasuries, Dispute, Arbitration, and the ability to interact with any other smart contract on Ethereum.	https://colony.io/	https://twitter.com/colonydao
Surfpass	Governance	The Surfpass DAO tool is a model for digital assets currently with over 30,000 users featured. They sponsor events building new artwork and community meetings.	https://www.surfpass.io/	https://twitter.com/surfpassdao
QChain	Governance	QChain is a vote having platform for various control and collaboration. It lets you and others work together on projects from anywhere. This latest business plan QChain wants the blockchain, transparency, security, and full requests.	https://www.qchain.io/	https://twitter.com/qchaindao
Outfish	Launcher, Treasury	Outfish is an open source project advancing the technology and adoption of decentralized governance.	https://www.outfish.io/	https://twitter.com/outfishdao
Meat	Governance	Dissect offers a platform of multi-faced, multi-sided content. It is widely used by DAOs for varied group and private communications, including an official part of decision-making.	https://www.meat.io/	https://twitter.com/meatdao
2020	Launcher	2020 is a decentralized digital resolution platform for use as smart contract, which has been implemented on Ethereum. It acts as a decentralized third party capable of providing decisions on the correct result when applying a set of rules to questions ranging from simple to highly complex.	https://www.2020.io/	https://twitter.com/2020dao
OSAO	Launcher	OSAO is a no-code DAO generator for EVM-compatible blockchain networks. Based on smart contracts, it offers a suite of tools for treasury management & operation and most on-off voting system to meet your goal. It currently (BUIDL) is a platform of modules to enhance governance and offer DAO utilities.	https://www.osao.io/	https://twitter.com/osaoio
OpenLaw	Governance	OpenLaw is a leader in merging legal standards with smart contracts, and co-founder of three legal official DAOs. It extends a legal engineering approach and the Trello DAO launcher, with value legal and NFT modules.	https://www.openlaw.io/	https://twitter.com/openlawdao
Olympus	Protocol	Olympus is a decentralized network currently project based on the ETH blockchain. Each ETH token is backed by a basket of assets (e.g. S&P 500). In the Olympus treasury, giving it intrinsic value that cannot fall below. Olympus also introduces unique economic and game-theoretic dynamics into the market through staking and bonding.	https://olympusdao.lol/	https://twitter.com/olympusdao
OverseerDAO	Protocol	Overseer Protocol is governed by a 5-persons based non-profit foundation, whose mission is to ensure open access to the protocol and platform, provide data governance, encourage the network ecosystem growth, and take measures to ensure that the platform become ever more decentralized with time.	https://www.overseerdao.com/	https://twitter.com/overseerdao
Moss	NFTs	MossDAO is a pure in-focus-oriented community, support, and charity—and not on monetization. It will collect NFTs, but not real them. Not only it MossDAO has a presence in the digital world and a various relevance.	https://www.mossdao.com/	https://twitter.com/mossdao
GGC	Media	Global Coin Research is a blockchain, decentralized community of learners and learners in web3.	https://www.ggc.io/	https://twitter.com/ggcdao
Surf	Protocol	SurfDAO is an automated market-making (AMM) decentralized exchange (DEX) currently on the Ethereum blockchain. In addition to DEX, SurfDAO provides a collection of governance, operation and reward contracts that help grow the SurfDAO ecosystem and allocation.	https://www.surfdao.com/	https://twitter.com/surfdao
Curve Finance	Protocol	Curve is an exchange liquidity pool on Ethereum. Curve is designed for extremely efficient trading and low fees, supplemented to income for liquidity providers, without an liquidity cost.	https://www.curve.fi/	https://twitter.com/curvefinance
Reflekt	Social	Reflekt is a decentralized code collaboration network built on open protocols. It enables developers to collaborate on code without relying on hosted infrastructures.	https://www.reflekt.io/	https://twitter.com/reflektio
Sevica	Service	Sevica was created by the team of a new innovative global ecosystem, to explore that decentralized tools and infrastructure is independent entities so that they can develop that work as it says that each that personal flexible platform.	https://www.sevica.io/	https://twitter.com/sevicaio
White	Collector	White DAO is an exclusive, well-governed community where crypto & non-crypto affiliates gain access to unforgettable experiences, own projects, & lifetime profitability. Our community, supported by a decentralized, micro-economy that facilitates ONLY the most exclusive, cross-chain movement of projects.	https://www.whitedao.com/	https://twitter.com/whitedao
Rail Capital	Protocol	Rail Capital is a suite of decentralized finance products, an ecosystem to bridge the gap between technical and non-technical nodes, in order to bring the next wave of mass users into the industry.	https://www.railcapital.com/	https://twitter.com/railcapital
Reaper	Protocol	Reaper is a decentralized autonomous organization (DAO) focused on building the products and infrastructure necessary to accelerate the growth of Bitcoin in Decentralized Finance (DeFi) across multiple blockchains. Specifically, it is an ecosystem where projects and people from across DeFi can come together to collaborate and build effectively.	https://www.reaperdao.com/	https://twitter.com/reaperdao
Brigit Moments	Social	The Brigit Moments DAO is made of Cryptobitches, a collection of 10,000 NFTs named BIL in 10 colors across the world. Cryptobitches serves across the DAO and takes measures to secure events and artworks.	https://www.brigitmoments.com/	https://twitter.com/brigitmoments
Sevage DAO	Collector	A community-driven digital art house.	https://www.sevagedao.com/	https://twitter.com/sevagedao
Adia	Community Management	A DAO creation tool for launching DAOs and the NFT blockchain.	https://www.adia.io/	https://twitter.com/adiaio
Measur	Governance	Measur is a tool for the creation, deployment, and the public release of the revolutionary new DAOs, and are building data tools that will offer informal decision making and treatment. We believe that crypto will demonstrate innovation to information, break down data silos, and ultimately give access to data.	https://www.measur.io/	https://twitter.com/measurdao
Surfpass	Governance	Surfpass is a web-based payments tool that enables programmable and recurring payments. Surfpass provides developers and users alike the ability to pay and be paid in a more automated, customizable and seamless manner than conventional banking and P2P tech.	https://www.surfpass.io/	https://twitter.com/surfpassdao
Vision	Governance	The Vision voting protocol has been specially designed to be secure in an aspect. By using decentralized technologies we achieve a governance infrastructure that is secure, with integrity, transparency and strong protection to rights.	https://www.visiondao.com/	https://twitter.com/visiondao
Flamingo	NFT collection/marketplace	The Flamingo DAO gives the members the ability to develop and deploy NFT-based investment strategies. Once purchased, Flamingo could evolve to a number of different directions. Any purchased NFTs can be held, deployed in a digital art gallery or used as collateral in other DAOs.	https://www.flamingo.io/	https://twitter.com/flamingoio
Crypt Signer Meta DAO	NFT collection/marketplace	The Crypt Signer Meta NFT is a group of yield generating NFTs governed by DAO membership of the "DAO Hack" of 2016. Only 3,000 NFTs will ever be created, of which we have "owned" 2,000 are "new" and 2015 are "veteran".	https://www.cryptsignerdao.com/	https://twitter.com/cryptsignerdao
NFT DAO	NFT collection/marketplace	NFT DAO is a DAO that is designed to provide a place for people to build on the Cardano blockchain. As of February 2022 there are four sub-DAOs building on the Cardano blockchain to assist crypto creators in their digital artwork, including domain holding, on demand NFT minting infrastructure.	https://www.nftdao.com/	https://twitter.com/nftdao
Rail DAO	NFT collection/marketplace	Rail DAO is a DAO that is designed to provide a place for people to build on the Cardano blockchain. As of February 2022 there are four sub-DAOs building on the Cardano blockchain to assist crypto creators in their digital artwork, including domain holding, on demand NFT minting infrastructure.	https://www.raildao.com/	https://twitter.com/raildao
MetaDAO	NFT collection/marketplace	MetaDAO is a DAO that is designed to provide a place for people to build on the Cardano blockchain. As of February 2022 there are four sub-DAOs building on the Cardano blockchain to assist crypto creators in their digital artwork, including domain holding, on demand NFT minting infrastructure.	https://www.metadao.com/	https://twitter.com/metadao
PIOP	NFT collection/marketplace	PIOP is a DAO that is designed to provide a place for people to build on the Cardano blockchain. As of February 2022 there are four sub-DAOs building on the Cardano blockchain to assist crypto creators in their digital artwork, including domain holding, on demand NFT minting infrastructure.	https://www.piop.io/	https://twitter.com/piopio
Cardano	NFT collection/marketplace	Cardano is a DAO that is designed to provide a place for people to build on the Cardano blockchain. As of February 2022 there are four sub-DAOs building on the Cardano blockchain to assist crypto creators in their digital artwork, including domain holding, on demand NFT minting infrastructure.	https://www.cardano.org/	https://twitter.com/cardano
Cardano	NFT collection/marketplace	Cardano is a DAO that is designed to provide a place for people to build on the Cardano blockchain. As of February 2022 there are four sub-DAOs building on the Cardano blockchain to assist crypto creators in their digital artwork, including domain holding, on demand NFT minting infrastructure.	https://www.cardano.org/	https://twitter.com/cardano
Not Boring	Launcher	Not Boring is a DAO that is designed to provide a place for people to build on the Cardano blockchain. As of February 2022 there are four sub-DAOs building on the Cardano blockchain to assist crypto creators in their digital artwork, including domain holding, on demand NFT minting infrastructure.	https://www.notboring.io/	https://twitter.com/notboringio
Mitch DAO	Guilds	MitchDAO is a decentralized Autonomous Organization, deployed on Ethereum network. Members contribute capital with the sole intention of giving it all away to fund Ethereum infrastructure as an essential digital public good.	https://www.mitchdao.com/	https://twitter.com/mitchdao
Sevage Foundation	Guilds	A non-profit organization dedicated to the promotion of art. Provides a framework for artists and organizations to engage through art exhibitions and grants with charitable or non-profit organizations. Revenue arising from art, generating 0% profit and providing a unique and innovative tool for collaboration.	https://www.sevagefoundation.com/	https://twitter.com/sevagefoundation
Aene Grants DAO	Guilds	Aene Grants DAO is a community-led grants program that funds ideas submitted by the Aenean project's community, with a focus on empowering a wider network of community developers.	https://www.aeneagrantsdao.com/	https://twitter.com/aeneagrantsdao
Met Fund	Guilds	Met Fund is a community project providing funds for artists interested in bringing their art to the world of crypto art NFTs.	https://www.metfund.io/	https://twitter.com/metfundio
Gardens	Treasury, Governance	Gardens is a launchpad, management, discussion & documentation hub for DAOs, called Gardens. Gardens' governance is rooted in a solid constitution, consistent voting, consensus building, and official dispute resolution.	https://www.gardens.io/	https://twitter.com/gardensdao
DAOChain	Treasury, Governance	DAOChain is a blockchain DAO, being a decentralized DAO, it is a set of smart contracts, including voting, dispute resolution, and emergency. DAOChain is governed by holders of the DAO token, which is a decentralized DAO, being a decentralized DAO, it is a set of smart contracts, including voting, dispute resolution, and emergency.	https://www.daochain.io/	https://twitter.com/daochain
Commonwealth	Treasury, Governance	Commonwealth serves management tools and a step integration platform for on-chain discussion, proposal-making & voting protocols, including identity services and native crowdfunding.	https://www.commonwealth.io/	https://twitter.com/commonwealthio
LeadsDAO	Treasury, Governance, Legal	LeadsDAO is a non-profit association of legal engineers that manages legal & law and smart contracts. It offers a suite of Legal Liability Contracts designed for DAOs, and secure assets resolution.	https://www.leadsdao.com/	https://twitter.com/leadsdao
Enzyme	Treasury, DeFi	Enzyme is a non-profit DAO controlling the Enzyme protocol for assets management, that is based on multi-collateral and user-integrated investment tools. It offers DAOs a set of flexible capabilities to use its resources, currently bearing towards multi-collateral DeFi.	https://www.enzyme.fi/	https://twitter.com/enzymeio
Parasol	Treasury, DeFi	A treasury management tool for DAOs, allowing multi-collateral, securing and mass payments, and strategies to yield and asset management.	https://www.pasol.io/	https://twitter.com/pasolio
SecureVault	Treasury, Identity	SecureVault is a blockchain protocol allowing consensus by task, reputation and reward points and community contributions, according to flexible, self-governed rules.	https://www.securevault.io/	https://twitter.com/securevaultio
Security Priority	Security, Privacy	Security Priority is a blockchain protocol allowing consensus by task, reputation and reward points and community contributions, according to flexible, self-governed rules.	https://www.securitypriority.io/	https://twitter.com/securitypriorityio
Unstoppable	Treasury, DeFi	Unstoppable is a decentralized protocol providing for consensus by task, reputation and reward points and community contributions, according to flexible, self-governed rules.	https://www.unstoppable.io/	https://twitter.com/unstoppableio
Proof of Humanity	Identity	Proof of Humanity is a network of the Keras project that registers human, upon personal identification and verified voting. This protocol harnesses a peer participation and an alternate Decentralized Human Index token.	https://www.proofofhumanity.io/	https://twitter.com/proofofhumanity
PublicGood	PublicGood	PublicGood is a network of the Keras project that registers human, upon personal identification and verified voting. This protocol harnesses a peer participation and an alternate Decentralized Human Index token.	https://www.publicgood.io/	https://twitter.com/publicgoodio
Incubation	Incubation	Incubation is a network of the Keras project that registers human, upon personal identification and verified voting. This protocol harnesses a peer participation and an alternate Decentralized Human Index token.	https://www.incubation.io/	https://twitter.com/incubationio
Glitch	Glitch	Glitch is a network of the Keras project that registers human, upon personal identification and verified voting. This protocol harnesses a peer participation and an alternate Decentralized Human Index token.	https://www.glitch.io/	https://twitter.com/glitchio
Chameleon	Chameleon	Chameleon is a network of the Keras project that registers human, upon personal identification and verified voting. This protocol harnesses a peer participation and an alternate Decentralized Human Index token.	https://www.chameleon.io/	https://twitter.com/chameleonio
Chameleon	Chameleon	Chameleon is a network of the Keras project that registers human, upon personal identification and verified voting. This protocol harnesses a peer participation and an alternate Decentralized Human Index token.	https://www.chameleon.io/	https://twitter.com/chameleonio
Chameleon	Chameleon	Chameleon is a network of the Keras project that registers human, upon personal identification and verified voting. This protocol harnesses a peer participation and an alternate Decentralized Human Index token.	https://www.chameleon.io/	https://twitter.com/chameleonio
Chameleon	Chameleon	Chameleon is a network of the Keras project that registers human, upon personal identification and verified voting. This protocol harnesses a peer participation and an alternate Decentralized Human Index token.	https://www.chameleon.io/	https://twitter.com/chameleonio
Chameleon	Chameleon	Chameleon is a network of the Keras project that registers human, upon personal identification and verified voting. This protocol harnesses a peer participation and an alternate Decentralized Human Index token.	https://www.chameleon.io/	https://twitter.com/chameleonio
Chameleon	Chameleon	Chameleon is a network of the Keras project that registers human, upon personal identification and verified voting. This protocol harnesses a peer participation and an alternate Decentralized Human Index token.	https://www.chameleon.io/	https://twitter.com/chameleonio
Chameleon	Chameleon	Chameleon is a network of the Keras project that registers human, upon personal identification and verified voting. This protocol harnesses a peer participation and an alternate Decentralized Human Index token.	https://www.chameleon.io/	https://twitter.com/chameleonio
Chameleon	Chameleon	Chameleon is a network of the Keras project that registers human, upon personal identification and verified voting. This protocol harnesses a peer participation and an alternate Decentralized Human Index token.	https://www.chameleon.io/	https://twitter.com/chameleonio
Chameleon	Chameleon	Chameleon is a network of the Keras project that registers human, upon personal identification and verified voting. This protocol harnesses a peer participation and an alternate Decentralized Human Index token.	https://www.chameleon.io/	https://twitter.com/chameleonio
Chameleon	Chameleon	Chameleon is a network of the Keras project that registers human, upon personal identification and verified voting. This protocol harnesses a peer participation and an alternate Decentralized Human Index token.	https://www.chameleon.io/	https://twitter.com/chameleonio
Chameleon	Chameleon	Chameleon is a network of the Keras project that registers human, upon personal identification and verified voting. This protocol harnesses a peer participation and an alternate Decentralized Human Index token.	https://www.chameleon.io/	https://twitter.com/chameleonio
Chameleon	Chameleon	Chameleon is a network of the Keras project that registers human, upon personal identification and verified voting. This protocol harnesses a peer participation and an alternate Decentralized Human Index token.	https://www.chameleon.io/	https://twitter.com/chameleonio
Chameleon	Chameleon	Chameleon is a network of the Keras project that registers human, upon personal identification and verified voting. This protocol harnesses a peer participation and an alternate Decentralized Human Index token.	https://www.chameleon.io/	https://twitter.com/chameleonio
Chameleon	Chameleon	Chameleon is a network of the Keras project that registers human, upon personal identification and verified voting. This protocol harnesses a peer participation and an alternate Decentralized Human Index token.	https://www.chameleon.io/	https://twitter.com/chameleonio
Chameleon	Chameleon	Chameleon is a network of the Keras project that registers human, upon personal identification and verified voting. This protocol harnesses a peer participation and an alternate Decentralized Human Index token.	https://www.chameleon.io/	https://twitter.com/chameleonio
Chameleon	Chameleon	Chameleon is a network of the Keras project that registers human, upon personal identification and verified voting. This protocol harnesses a peer participation and an alternate Decentralized Human Index token.	https://www.chameleon.io/	https://twitter.com/chameleonio
Chameleon	Chameleon	Chameleon is a network of the Keras project that registers human, upon personal identification and verified voting. This protocol harnesses a peer participation and an alternate Decentralized Human Index token.	https://www.chameleon.io/	https://twitter.com/chameleonio
Chameleon	Chameleon	Chameleon is a network of the Keras project that registers human, upon personal identification and verified voting. This protocol harnesses a peer participation and an alternate Decentralized Human Index token.	https://www.chameleon.io/	https://twitter.com/chameleonio
Chameleon	Chameleon	Chameleon is a network of the Keras project that registers human, upon personal identification and verified voting. This protocol harnesses a peer participation and an alternate Decentralized Human Index token.	https://www.chameleon.io/	https://twitter.com/chameleonio
Chameleon	Chameleon	Chameleon is a network of the Keras project that registers human, upon personal identification and verified voting. This protocol harnesses a peer participation and an alternate Decentralized Human Index token.	https://www.chameleon.io/	https://twitter.com/chameleonio
Chameleon	Chameleon	Chameleon is a network of the Keras project that registers human, upon personal identification and verified voting. This protocol harnesses a peer participation and an alternate Decentralized Human Index token.	https://www.chameleon.io/	https://twitter.com/chameleonio
Chameleon	Chameleon	Chameleon is a network of the Keras project that registers human, upon personal identification and verified voting. This protocol harnesses a peer participation and an alternate Decentralized Human Index token.	https://www.chameleon.io/	https://twitter.com/chameleonio
Chameleon	Chameleon	Chameleon is a network of the Keras project that registers human, upon personal identification and verified voting. This protocol harnesses a peer participation and an alternate Decentralized Human Index token.	https://www.chameleon.io/	https://twitter.com/chameleonio
Chameleon	Chameleon	Chameleon is a network of the Keras project that registers human, upon personal identification and verified voting. This protocol harnesses a peer participation and an alternate Decentralized Human Index token.	https://www.chameleon.io/	https://twitter.com/chameleonio
Chameleon	Chameleon	Chameleon is a network of the Keras project that registers human, upon personal identification and verified voting. This protocol harnesses a peer participation and an alternate Decentralized Human Index token.	https://www.chameleon.io/	https://twitter.com/chameleonio
Chameleon	Chameleon	Chameleon is a network of the Keras project that registers human, upon personal identification and verified voting. This protocol harnesses a peer participation and an alternate Decentralized Human Index token.	https://www.chameleon.io/	https://twitter.com/chameleonio
Chameleon	Chameleon	Chameleon is a network of the Keras project that registers human, upon personal identification and verified voting. This protocol harnesses a peer participation and an alternate Decentralized Human Index token.	https://www.chameleon.io/	https://twitter.com/chameleonio
Chameleon	Chameleon	Chameleon is a network of the Keras project that registers human, upon personal identification and verified voting. This protocol harnesses a peer participation and an alternate Decentralized Human Index token.	https://www.chameleon.io/	https://twitter.com/chameleonio
Chameleon	Chameleon	Chameleon is a network of the Keras project that registers human, upon personal identification and verified voting. This protocol harnesses a peer participation and an alternate Decentralized Human Index token.	https://www.chameleon.io/	https://twitter.com/chameleonio
Chameleon	Chameleon	Chameleon is a network of the Keras project that registers human, upon personal identification and verified voting. This protocol harnesses a peer participation and an alternate Decentralized Human Index token.	https://www.chameleon.io/	https://twitter.com/chameleonio
Chameleon	Chameleon	Chameleon is a network of the Keras project that registers human, upon personal identification and verified voting. This protocol harnesses a peer participation and an alternate Decentralized Human Index token.	https://www.chameleon.io/	https://twitter.com/chameleonio
Chameleon	Chameleon	Chameleon is a network of the Keras project that registers human, upon personal identification and verified voting. This protocol harnesses a peer participation and an alternate Decentralized Human Index token.	https://www.chameleon.io/	https://twitter.com/chameleonio
Chameleon	Chameleon	Chameleon is a network of the Keras project that registers human, upon personal identification and verified voting. This protocol harnesses a peer participation and an alternate Decentralized Human Index token.	https://www.chameleon.io/	https://twitter.com/chameleonio
Chameleon	Chameleon	Chameleon is a network of the Keras project that registers human, upon personal identification and verified voting. This protocol harnesses a peer participation and an alternate Decentralized Human Index token.	https://www.chameleon.io/	https://twitter.com/chameleonio
Chameleon	Chameleon	Chameleon is a network of the Keras project that registers human, upon personal identification and verified voting. This protocol harnesses a peer participation and an alternate Decentralized Human Index token.	https://www.chameleon.io/	https://twitter.com/chameleonio
Chameleon	Chameleon	Chameleon is a network of the Keras project that registers human, upon personal identification and verified voting. This protocol harnesses a peer participation and an alternate Decentralized Human Index token.	https://www.chameleon.io/	https://twitter.com/chameleonio
